

Face 2 Face HR

Commercially focused, down-to-earth
and creative HR professionals

About Face 2 Face HR

We are a team of commercially focussed, down to earth and creative HR professionals. We help small business owners and management teams feel confident in managing the people side of their business, their way. Our clients are owner managed SME's in the creative, consultancy, tech, science and engineering sectors.

Challenges & Growth

When I started, I didn't have much of a network in Oxfordshire and limited experience running a business. While I've always had good commercial sense, learning from others has helped me focus, grow, and develop the right approach.

My approach & values

My goal has always been simple: to enjoy what I do and make a tangible difference for my clients. I work according to three key values:

Practical & Down-to-Earth

Advice is commercial and grounded in experience, not just theory or legal guidance. I provide options, but always a clear recommendation.

Highly Responsive

When clients need advice, they don't want to wait. I am to respond within 24 hours.

Solutions Focussed

My guidance is action-oriented, addressing the root cause of HR challenges.

Support from Enterprise Oxfordshire Business

I benefited from one-to-one mentoring, which helped me clarify my vision and ideal clients. Peer networking sessions connected me with supportive people like Helen Brind, giving me confidence and ideas I've since implemented in my business.

The guidance, encouragement and networking opportunities have been invaluable. They have helped me structure my business, grow a strong network, and feel confident in what I do.

“ I have always found the support to be invaluable in building and growing a network, structuring my business and being confident in what I'm doing. ”
