

Oxford Duplication Centre Ltd

Providing a multi-award winning professional archival and digitisation service in Oxford UK for corporate, heritage and consumer collections

About Oxford Duplication Centre Ltd

At Oxford Duplication Centre, we specialise in digitisation, archiving, and data recovery services for corporate, heritage, and consumer clients. We began as a CD and DVD duplication company and quickly expanded into photographic film, audio-visual, and cine digitisation.

More recently, we've invested in advanced scanning technology and data recovery services, enabling us to extract and preserve information from legacy media. Our work is trusted by leading institutions and organisations across the UK.

Challenges & Growth

A key challenge has been recruiting and developing staff with the right skills, as archiving is a specialist field. We've successfully built a strong team by training individuals with transferable skills and a passion for history.

Our ambition has been to become a leading UK provider of digital archiving, achieved through ongoing investment in technology and forward planning.

Next steps

Our focus over the next six months is growth and expansion. We are continuing to recruit, broaden our services, and strengthen relationships with existing clients.

As demand for digital archiving increases, we are well positioned to support organisations and individuals in preserving valuable materials. It's an exciting time for the business as we continue to grow and adapt in an evolving sector.

Support from Enterprise Oxfordshire Business

Enterprise Oxfordshire has supported us through workshops and discussions that encouraged us to step back and reflect on the business and our leadership approach.

A particular focus on personal development and wellbeing helped me become more balanced as a director, improving both my day-to-day management and overall outlook. This has had a positive impact on how we run and grow the business.

Enterprise Oxfordshire Business has been a business support for nearly 2 years in providing a platform that both connects our business to other SMEs but more importantly providing friendly support in the areas that matter by using their Business Support Tool. So, thank you.
